Roman

# The company

## A solid brand in ceramic industry

Since the early 70's, the company committed to the ceramic tiles industry with the production of wall tiles in PT. Metropole Megah, East Java. In the 90's Roman proved its solidity by opening a second plant, PT. Satyaraya Keramindoindah, in Tangerang, Indonesia. As a testament of its increasing success, production of a third plant in East Java started in 2007: this plant is named PT. Roman Ceramic International and is equipped with the most advanced Italian technology, making it one of the most efficient ceramic factories in the whole Indonesia and Asia.

Roman's facilities have been producing floor and wall tiles for the international market for more than three decades. Today, Roman continues to grow steadily, emerging as a leading international player and exporting to more than 90 countries worldwide, with an annual production capacity of 24 million square meters, managing the entire manufacturing process from raw materials to finished products. On a quest for flawless quality, in line with Roman's business philosophy, the standards set by the ISO 9001 certification guarantee the company has what it takes to compete in the global market.

PT. Roman Ceramic International and PT. Satyaraya Keramindoindah both belong to Lyman Group's Building Material Division.

## Cutting edge technology and uncompromising quality

Roman has perfected techniques that make its ceramic tiles among the most durable and appealing in the market. Sophisticated, Italian-made equipment and innovative processes ensure excellent colour consistency and vibrant hues with low maintenance year after year. Strict controls at each stage of manufacturing guarantee that each tile leaving the factory complies with the highest international and ISO standards. Plus, even the biggest delivery commitment or the tightest deadline is easily met, thanks to the company's one-roof, fully computerized system.

## A professional approach to fulfil our commitments

Professionalism is key to Roman's reputation as a leading producer of ceramic tiles. With a truly multinational team, we work hard to maintain an efficient communication flow, making sure we make good on our commitments. A holistic approach to the development of human resources gives our personnel a chance to grow, refining their skills and deepening their expertise while gaining an understanding of the company's operations as a whole. Such an approach promotes teamwork, allowing us to fulfil, and even exceed, our customers' expectations.
