60/60

Andalusia | Matt | V2
60/60

Catalonia | Matt | V2
60/60

SURFACE STRUCTURED

SHADE VARIATION

In the production process, there is no shade variation. Produced by raw natural raw materials and due to combustion, tiles naturally come with color and size variations in the same batch and over batch to batch. Therefore manufacturers limit the amount of shade variation in the carton box by sorting the tiles coming from the production line.

QUICK TIPS

- View tiles as a carpet of tiles and not as individual pieces
- Before installation, it is recommended to check the desired effect with a dry lay first.
- It is also ideal to view the dry lay effect under lighting condition which is as close as possible to the final lighting condition.
- When using one type of tile within the same area, it is recommended to use tiles from within the same production batch.

V1

UNIFORM
FROM
TILE TO TILE

Tiles have a harmonious shade and texture with low minimal variation

V2

SLIGHTLY
NOTICEABLE
FROM TILE TO TILE

Tiles have a slight variation in shade and texture

V3

MODERATELY
NOTICEABLE
FROM TILE TO TILE

Tiles have a moderate variation in shade and texture

V4

DISTINCTLY
NOTICEABLE
FROM TILE TO TILE

Tiles have a random or substantial variation in shade and texture, and each piece of tile may be in shade to one another
